💼 Professional Summary

Motivated and detail-oriented Front-End Developer with hands-on training from a full-time coding bootcamp. I am skilled in building responsive and interactive web applications using HTML, CSS, JavaScript, and React. Proficient with Git for version control and Firebase for deployment. Eager to contribute strong problem-solving abilities and a passion for clean, user-friendly design to a collaborative development team.

⚒️ Technical Skills

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frameworks & Libraries: React
- Tools & Platforms: Git, GitHub, Firebase
- Key Concepts: Responsive Web Design, Component-Based Architecture, DOM Manipulation, API Integration

📏 Projects (Personal)

📌 E-Portfolio Website

🔗 GitHub: Ankubana/E-portifolio

- Built a fully responsive personal portfolio using HTML, CSS, and JavaScript.
- Designed a contact form enabling recruiters to reach out directly via email.

E-Commerce Bookstore (React App)

🔗 GitHub: Ankubana/React_app
- Developed a functional e-commerce platform for selling books online.
- Implemented product listings, cart functionality, and a responsive UI using React.

📌 NFT Virtual Internship Project

- Transformed a static single-page app into an interactive UI using animations, carousels, and multilingual support.
- Fetched dynamic data via API requests and displayed it using skeleton loaders, pagination, and dynamic routing in React.
- Collaborated in a virtual team using Git and GitHub for version control and code sharing.

🎨 Soft Skills

- Problem-Solving, Attention to Detail, Self-Motivated Learner, Team Collaboration, Effective Communication, Team Collaboration And Communication
